EasyLift 1, 2 & 3 | Wheelchair Lift up to 970mm

A cost-effective way to navigate staircases or different levels at home or work

Where ramps are too steep or too long – where stair lifts or elevators are needless due to too small difference in altitude – the EasyLift is the optimal solution.

With the help of our EasyLift models 1, 2 & 3, wheelchair users and physically disabled persons are able to comfortably and safely move between heights up to 970mm.

The weatherproof lifting platform can be easily put in place and readily moved to another location making it the perfect solution for urgent or temporary needs.

Simple Installation

The simple construction allows a fast installation with minimal structural works necessary on site.

Reliable & Comfortable

Designed for outdoor or indoor installation, a strong motor in combination with robust electronics ensure a reliable and low maintenance performance.

Optimal drive comfort is ensured by a stable and smooth lifting movement.

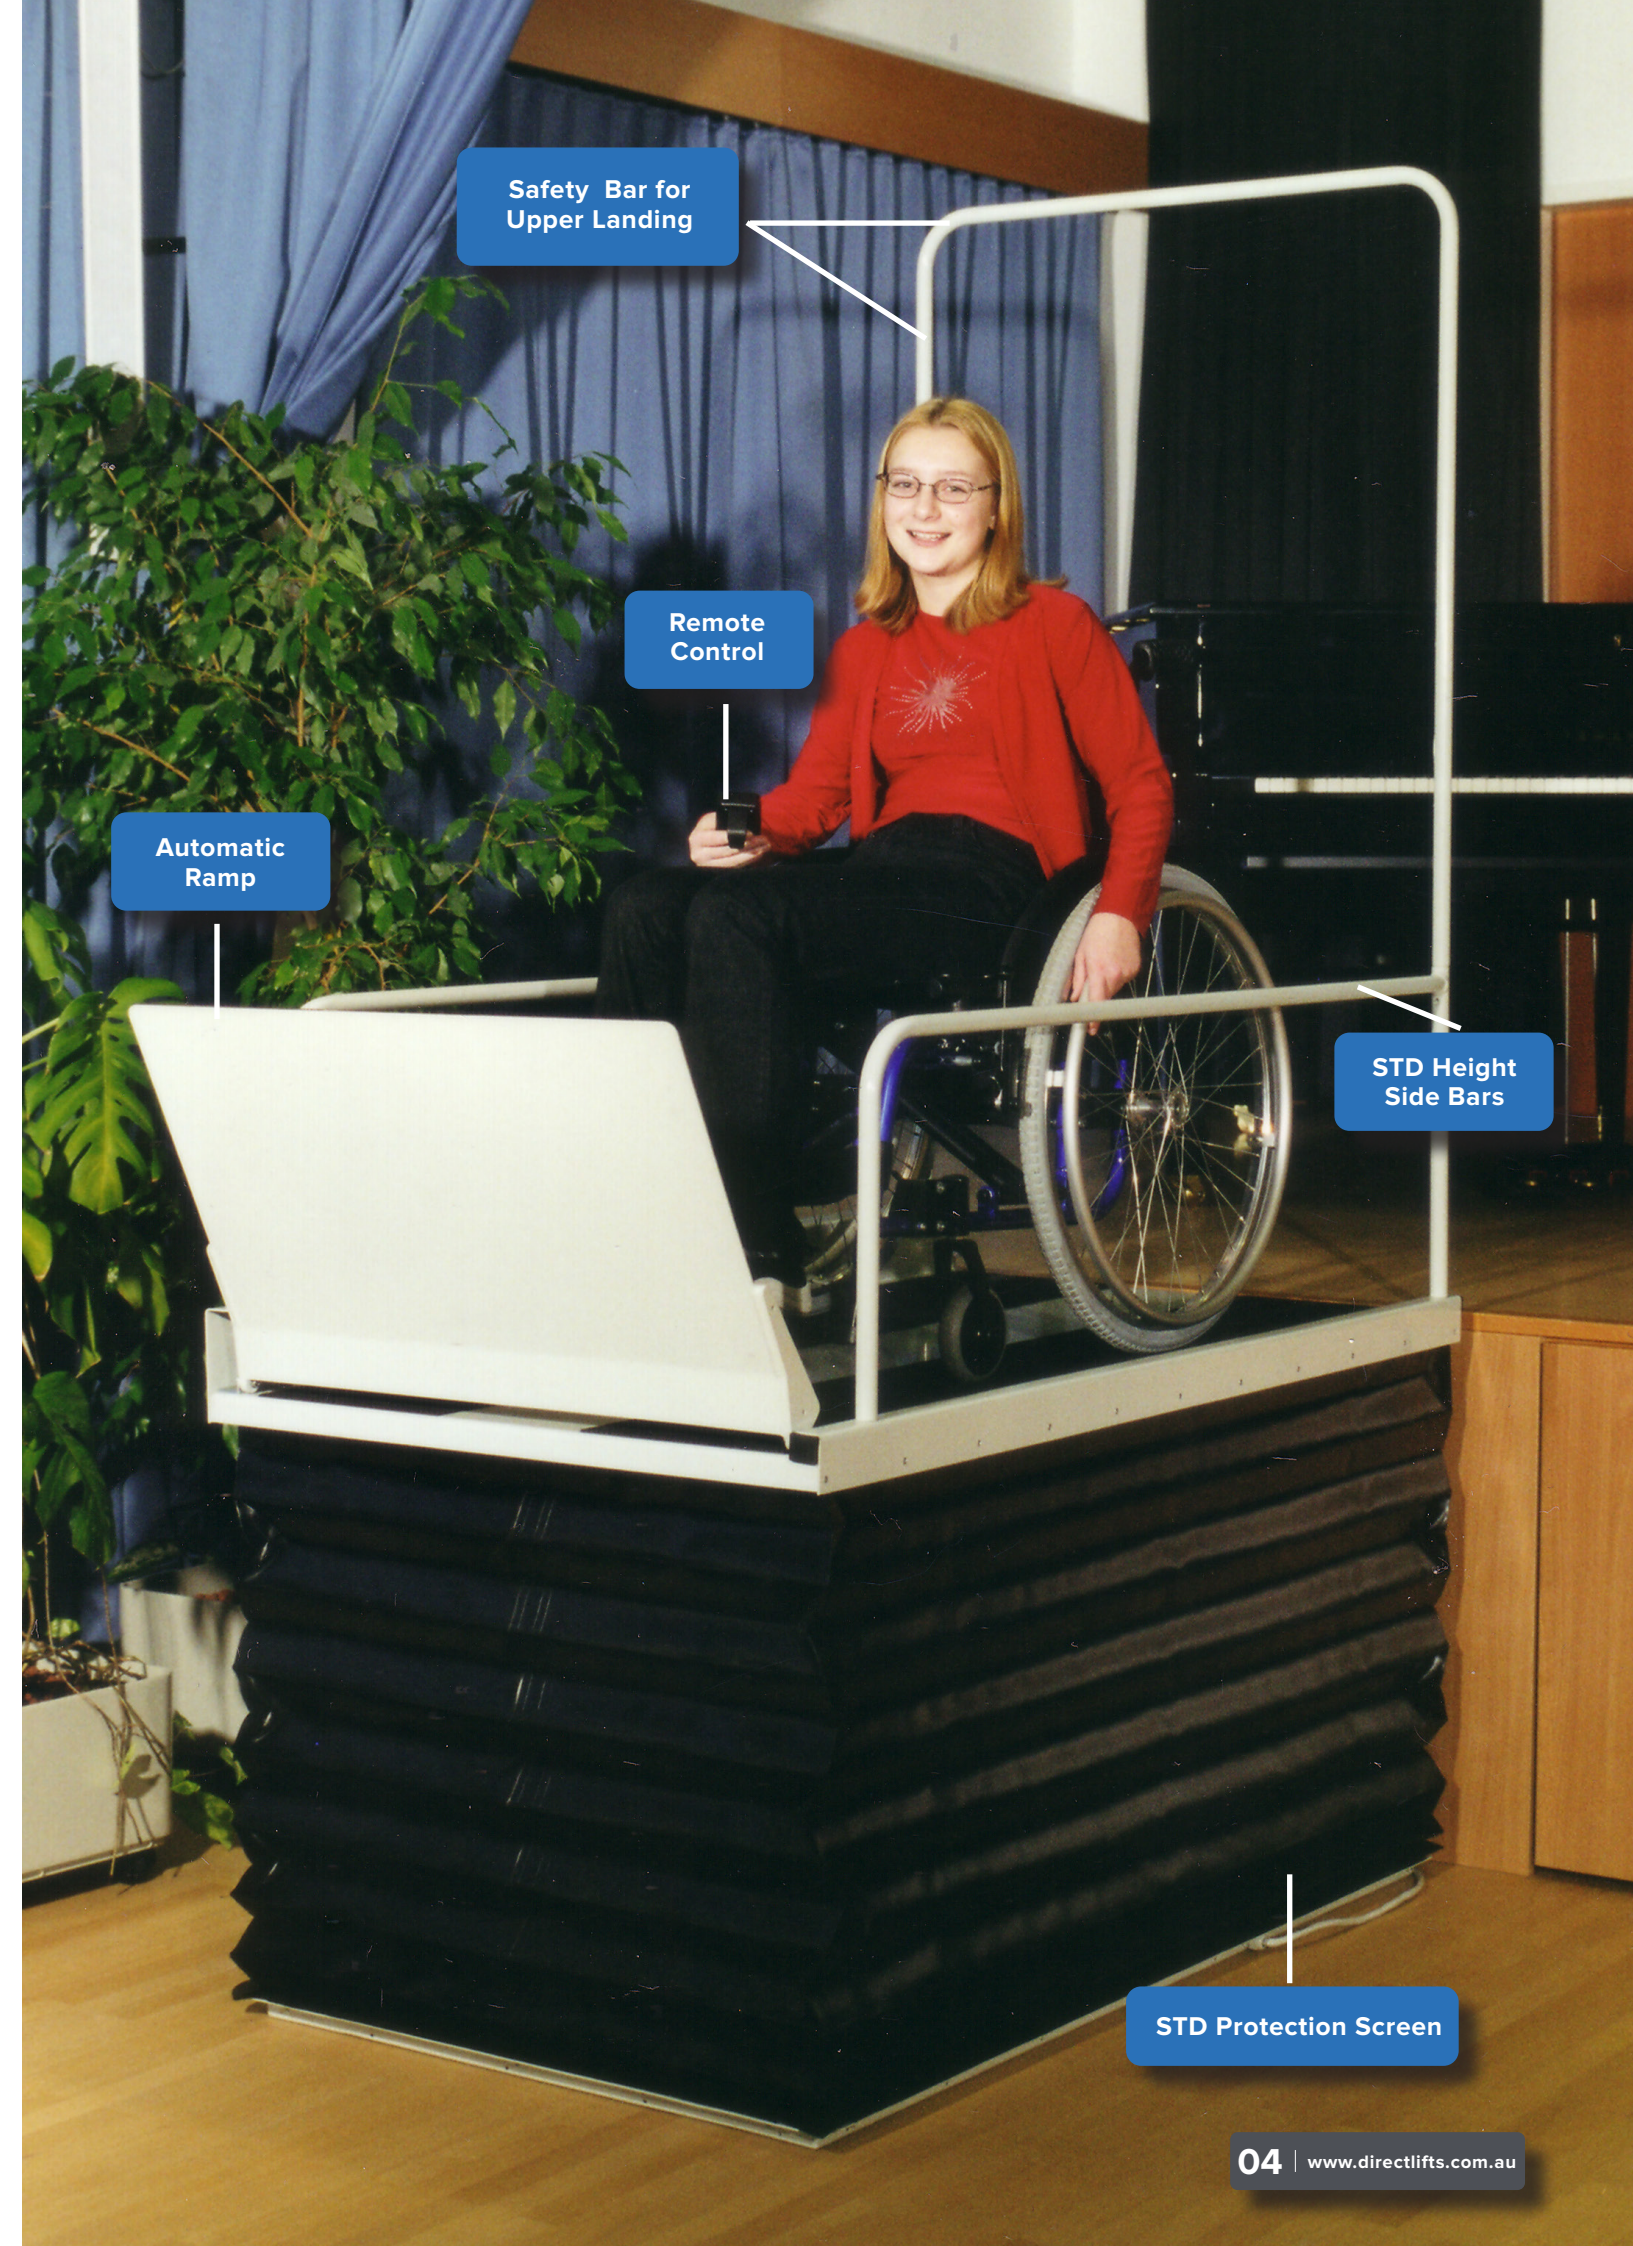

Indoor & Outdoor

EasyLift can be positioned indoors or outdoors. Ideal for temporary wheelchair access, the EasyLift can be easily rolled into position and be ready for use within minutes.

Why Choose EasyLift Wheelchair Lift

- Silent, stable and smooth driving experience
- **Simple to transport and fast to install**
- Available in any RAL colour
- **Available as an outdoor version**
- Optional with transport wheels for mobile version
- **Optional with extra long access ramp for easy access**
- 90° entry-exit is possible
