Residential Low Rise Platform Lifts

Ascensa

By **Direct Lifts Australia**

If it's getting difficult for you or a loved one to manoeuvre steps, stairs or change levels in the home, a platform lift may be the right solution.

Residential platform lifts and elevators provide an alternative to a costly house move or major changes to living arrangements.

- Compact design for both indoor and outdoor settings.
- Range of models suitable for rises up to 1.5m.
- Limited site preparation - easy installation.
- New Zealand designed and manufactured by disability access specialists.
- Principal supplier to New Zealand's health and disability sector.

Direct Lift's series of residential platform lifts and elevators are designed for height rises up to 1.5 meters, making them an ideal solution for navigating any change in levels into and around the home.

Safety and Compliance

Designed to overcome accessibility barriers with client's needs and safety foremost, the Direct Lift series meet compliance requirements and Australia/New Zealand disability codes and recommendations.

Lifts have been certified for Access Equipment Safety and Structural Engineering Compliance by independent certifiers and are compliant with the relevant Building Codes.

Certificate of Plant Design Registration by WorkCover NSW Government.

NZ & AU STANDARDS AND BUILDING CODE COMPLIANT LIFTS

- Suitable for use indoors and outdoors
- Range of models to suit specific size and weight requirements
- New Zealand designed and manufactured
- Compliant to the New Zealand Building Code and NZ Standards
- Nationwide network of installers
- AU Compliance

Installation

- Free standing design that bolts directly onto a concrete pad or timber floor without the need for pit, bore or load bearing wall
- Limited site preparation and easy installation
- Connection to a standard power supply (RCD protected)

Warranty

All Direct Lifts platform lifts come with a comprehensive warranty that covers the lift and installation when undertaken by Direct Lifts or one of our subcontractors

Accessories and options

A full range of accessories is available to further compliment the lift and meet specific client needs or requirements of the lift location. Lifts can also be custom designed and manufactured where required.

NEW ZEALAND MADE

Our lifts can be installed almost anywhere

We have installed our low-rise lifts in hundreds of homes across New Zealand and Australia, and are able to design and adapt our models to fit just about any environment or architectural challenge.

The platform lifts are free-standing and bolt directly onto a concrete pad or timber floor, so there's no need to construct a pit. They do not require a load bearing wall, allowing a wider choice of positioning the lift (note some models can be pit installed, if preferred, where the requirement for the small lead up ramp can be dispensed with). They require a connection to a standard power supply.

Ascensa: max rise up to 1 metre

- New Zealand designed and manufactured by access specialists.
- Meets requirements of the New Zealand and Australian Standards and relevant Building Codes.
- Easy installation.
